

FD3/200

Shown with Long Housing

FD500

Standard with Long Upper Housing

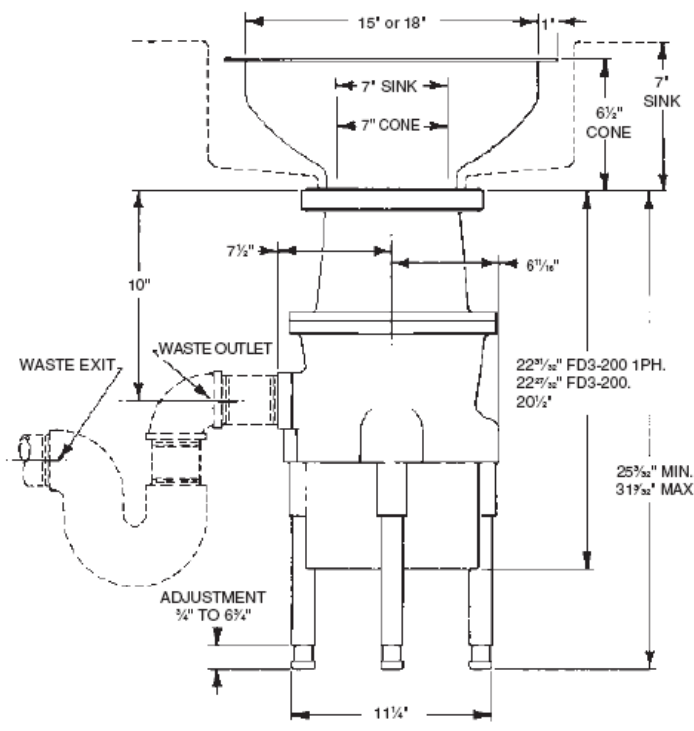

- Only available with long upper housings. Both models self supporting
- Available as complete “kits” or waste disposer units only for replacement purposes
- FD3/200 - 400 –1000 meals per day
- FD500 - 1000 plus meals per day
- Designed to grind food waste which is then flushed to waste via drain lines
- Utilizes 2 hardened stainless steel removable “CUTTER BLOCKS” which can be easily replaced through the throat of disposer
- Heavy-duty aluminum GRIND and DISCHARGE HOUSINGS for reduced operating noise levels
